Highfield Surgery is a large General Practice Partnership open to all patients living within the existing boundary in Blackpool and the surrounding areas. We work in partnership with our patients and our Patient Participation Group to provide medical care for our patients. We are a General Medical Services (GMS) practice offering primary care services for the diagnosis and prevention of disease. We help patients

# Statement of Purpose

## Highfield Surgery

manage their health and prevent illness. Our GPs assess, diagnose, treat and manage illness. They carry out screening for some diseases and promote general health and wellbeing.

Our GP's act as a patients advocate, supporting and representing a patient's best interests to ensure they receive the best and most appropriate health and/or social care. Our GPs also provide the link to further health services and work closely with other healthcare colleagues. They may also arrange hospital admissions and referrals to other services and specialists, and they link with secondary and community services about patient care, taking advice and sharing information where needed. They also collect and record important information from other healthcare professionals involved in the treatment of our patients.

Our GPs are also involved in the education and training of doctors, practice staff and other allied healthcare professionals.

### **Our mission statement:**

*"To provide our patients with high quality, accessible care in a responsive, courteous manner"*

### **Our aims and objectives:**

Highfield Surgery aims to improve the health, well-being and lives of those we care for. To work in partnership with our patients and staff to provide the best Primary Care services possible working within local and national governance, guidance and regulations.

- To provide high quality, safe, professional primary health care general practice services to our patients.
- To focus on prevention of disease by promoting health and wellbeing and offering care and advice to our patients
- To work in partnership with our patients, their families and carers towards a positive experience and understanding and involving them in decision making about their treatment and care.
- To be a learning organisation that continually improves what we can offer to patients.
- To treat patients as individuals and with the same respect we would want for ourselves or a member of our families, listening and supporting people to express their needs and wants and enabling people to maintain the maximum possible level of independence, choice and control.
- To work in partnership with other agencies to tackle the causes of, as well as provide the treatment for, ill health and where appropriate involve other professionals in the care of our patients.
- To ensure all staff have the competency and motivation to deliver the required standards of care ensuring that all members of the team have the right skills and training to carry out their duties competently.
- To take care of our staff, offering them support to do their jobs and protecting them against abuse.
- To provide our patients and staff with an environment which is safe and friendly.
- To operate on a financially sound basis.

### **Our services**

The GMS services provided by our GP's are defined under the GMS contract. These services are mainly split into three groups:

- Essential
- Additional
- Enhanced

# Statement of Purpose
